

2009 Prevention Unit Goals

1. The Prevention Unit will articulate the Public Health Model of Prevention with our partners in Education, Family Services, Health and other partners and will use it to address emerging issues including to develop a comprehensive prevention plan.

<u>How We Will Get There</u>	<u>How You Can Measure Our Progress</u>
Develop a process for community education	You will see our process
Make opportunities to plan together	Meeting minutes
Learn from 21 SIG	Meet with Rodney, Inform our activities
Submit periodic reports	Reports
Involve WYSAC, WyPTAC	Meeting attendance

2. We will work toward Environmental change in 100% of our communities with achievement of actual environmental change in 25 – 30% of communities, which means that 7 things need to change.

<u>How We Will Get There</u>	<u>How You Can Measure Our Progress</u>
Follow through on implementation	Status reports on Implementation
